

The question has been raised why staff park along the street instead of in the parking lot...

Teachers and support staff arrive at school by 8:45 am. At this time, vehicles should not be entering the parking lot as indicated on the sign by the entrance. This is in preparation of the buses that will be arriving to drop off students. Also support staff finish at 3:15 and teacher shortly after at 3:30pm. The buses are not finishing running through our parking lot until 3:45-3:50 which means that the staff would be caught in the parking lot later than needed.
